

North Little Rock CTAF Frequency Change

The CTAF (Common Traffic Advisory Frequency) for ORK (North Little Rock Municipal Airport) is changing to 123.07 on March 31 2016 at midnight. This change will coincide with the FAA Publications next effective date change March 31 2016. Come out and learn the latest information regarding the change and a chance to win great doorprizes.

Directions: From I-40 take exit 150, travel NE on W. Military Dr, cross McArthur Dr toward Camp Robinson, turn right on Donovan Briley Blvd, then right on Camp Robinson Rd to the intersection with Remount Rd. Take a left on Remount Rd for approx 1 1/2 miles, then turn right at West Entrance to NLR Airport. The blue EAA hangar is between Barrett Aviation and the Terminal bldg.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
